

Transmission Losses for May-2006

% Transmission Losses =
$$\frac{\text{Energy Injected in Network} - \text{Energy supplied to Discoms} \times 100}{\text{Energy Injected in Network}}$$

$$= \frac{(4776126.05 - 4557466.48) \times 100}{4776126.05}$$

$$= 4.58$$

	4557466.48
218659.57	4776126.05
	4.578178449
